

NAVEEN KUMAR T

Full Stack .Net Developer

📞 9080437109 | ✉ naveenfiumartse@gmail.com | 🌐 <https://nfdportfolio.netlify.app>

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Full Stack .NET Developer with **3.6+ years of experience** in developing and maintaining scalable web applications using **ASP.NET, .NET Core, Web API, C#, MS SQL Server, Angular, Blazor, JavaScript, HTML, CSS**. Proven track record of delivering successful solutions across domains like **Product Information Management, Event G Catering Management, and Affiliate Marfieting**. Adept in end-to-end software development, API integrations, and performance tuning.

SKILLS

Languages/Frameworks

C#, ASP.NET Core, ASP.NET MVC, Blazor WebAssembly, JavaScript, TypeScript (Basic)

Frontend Technologies

Blazor WebAssembly, HTML5, CSS3, Bootstrap, Razor Pages

Backend & API

.NET Core Web API, RESTful APIs, OAuth 2.0 Authentication, JWT, SignalR

Database

MS SQL Server, Stored Procedures, Views, Triggers, Entity Framework Core

ML Integration

ML.NET (for image restriction and moderation)

Version Control , IDEs & Workflow

Visual Studio 2022, VS Code, SQL Server Management Studio, Git (GitHub), Postman, Canva Charts, Agile Scrum, REST API standards

EXPERIENCE

Full Stack .NET Developer

Blazon

📅 2023 - 2025 | 📍 Coimbatore

Key Responsibilities:

- Developed and maintained full-stack web applications using **ASP.NET Core, Blazor WebAssembly, Web API, and SQL Server**.
- Followed **SOLID principles** and **clean architecture** for scalable and maintainable backend services.
- Designed and implemented **Razor** components for dynamic and responsive front-end interfaces, enhancing user experience and interaction.
- Designed and optimized **SQL Server** database schemas, improving query performance and reducing data retrieval times by **25%**.
- Integrated **Google Maps API** for venue selection, location display, and route navigation.
- Implemented **microservice architecture** for services like payment handling, analytics, and event notifications.
- Designed secure APIs with **OAuth 2.0** and **JWT authentication**, enabling token-based access control.
- Integrated **ML.NET** for image restriction in event modules and configured **payment gateways** for CMS/EMS subscription flows.
- Managed the full development lifecycle, including feature planning, coding, testing, and deployment, in an **Agile environment**.

Software Engineer

Studio Soft Solutions

📅 2021 - 2023 | 📍 Coimbatore

Key Responsibilities:

- Started by assisting the team in **bug fixing** and production issue resolution across ongoing projects
- Built admin modules for managing digital assets, product lifecycle stages, and version control.
- **Developed and updated websites** using **AngularJS** for dynamic frontend functionality and **ASP.NET MVC** for backend logic and data management.
- Progressed to developing features in **MarfietStudio**, a PIM system, using ASP.NET, Angular, Web API, and SQL Server.
- Implemented TDS and TCS logic for tax modules in enterprise systems and supported multi-region project deployment.
- Integrated **PayPal payment gateway** to enable secure online transactions, subscription plans, and order management.
- Worked on optimizing **SQL import/export modules** and **stored procedures** to improve performance and scalability.
- Documented code and created user manuals to assist training and onboarding for end-users.

EDUCATION

BSC Information Technology

Sri Krishna Arts and Science College

📅 2017 - 2020

PROJECTS

Product Information Management System

📅 2021 - 2023 📍 Coimbatore, India

Key Contributions:

- Developed and maintained a **PIM Admin Panel** to manage categories, products, and their dynamic attributes for multi-channel product publishing.
 - Enabled **Excel-based import/export** of product data and attributes for bulk operations.
 - Used **SQL Stored Procedures** to handle data transformation, validation, and efficient processing.
 - Structured data pushed from admin to **OCP Web Apps** for real-time product display and synchronization.
 - Implemented **size and color-based filtering** to enhance product search and display logic in the **OCP Web App**.
-

Smart Cater

📅 2023 - 2024 📍 Coimbatore, India

Key Contributions:

- Developed role-based modules for staff, Admin, and Super Admin.
 - Implemented **graphical dashboards using Canva Charts** for visual insights on booking, Enquiry, and Appointments with decision-making with weekly and monthly insights through interactive graphs.
 - Built reports for ingredient usage and daily schedule forecasting.
 - Developed modules for catering bookings, kitchen scheduling, and vendor management.
-

Event Management System

📅 2024 - 2024 📍 Coimbatore, India

Key Contributions:

- Created modules for event creation, calendar management, employee and employer.
 - Implemented **image content restriction using ML.NET**, preventing inappropriate image uploads during event creation.
 - Integrated real-time communication using **SignalR** for live guest check-in and event status.
-

Affiliate Marketing Platform

📅 2024 - 2025 📍 Coimbatore, India

Key Contributions:

- Created APIs for tracking referrals, clicks, and conversions using unique URLs.
 - Developed Blazor front-end components for dashboards and campaign performance.
 - Designed modules for managing affiliate registrations, commissions, and payouts.
 - **Integrated payment gateway** for managing **CMS and EMS subscription plans**.
-

AWARDS

Rising Star

Blazon

Rising Star Award for outstanding contribution to the **CMS "First Face"** project – recognized during its successful first release in **September 2024**.
